6.

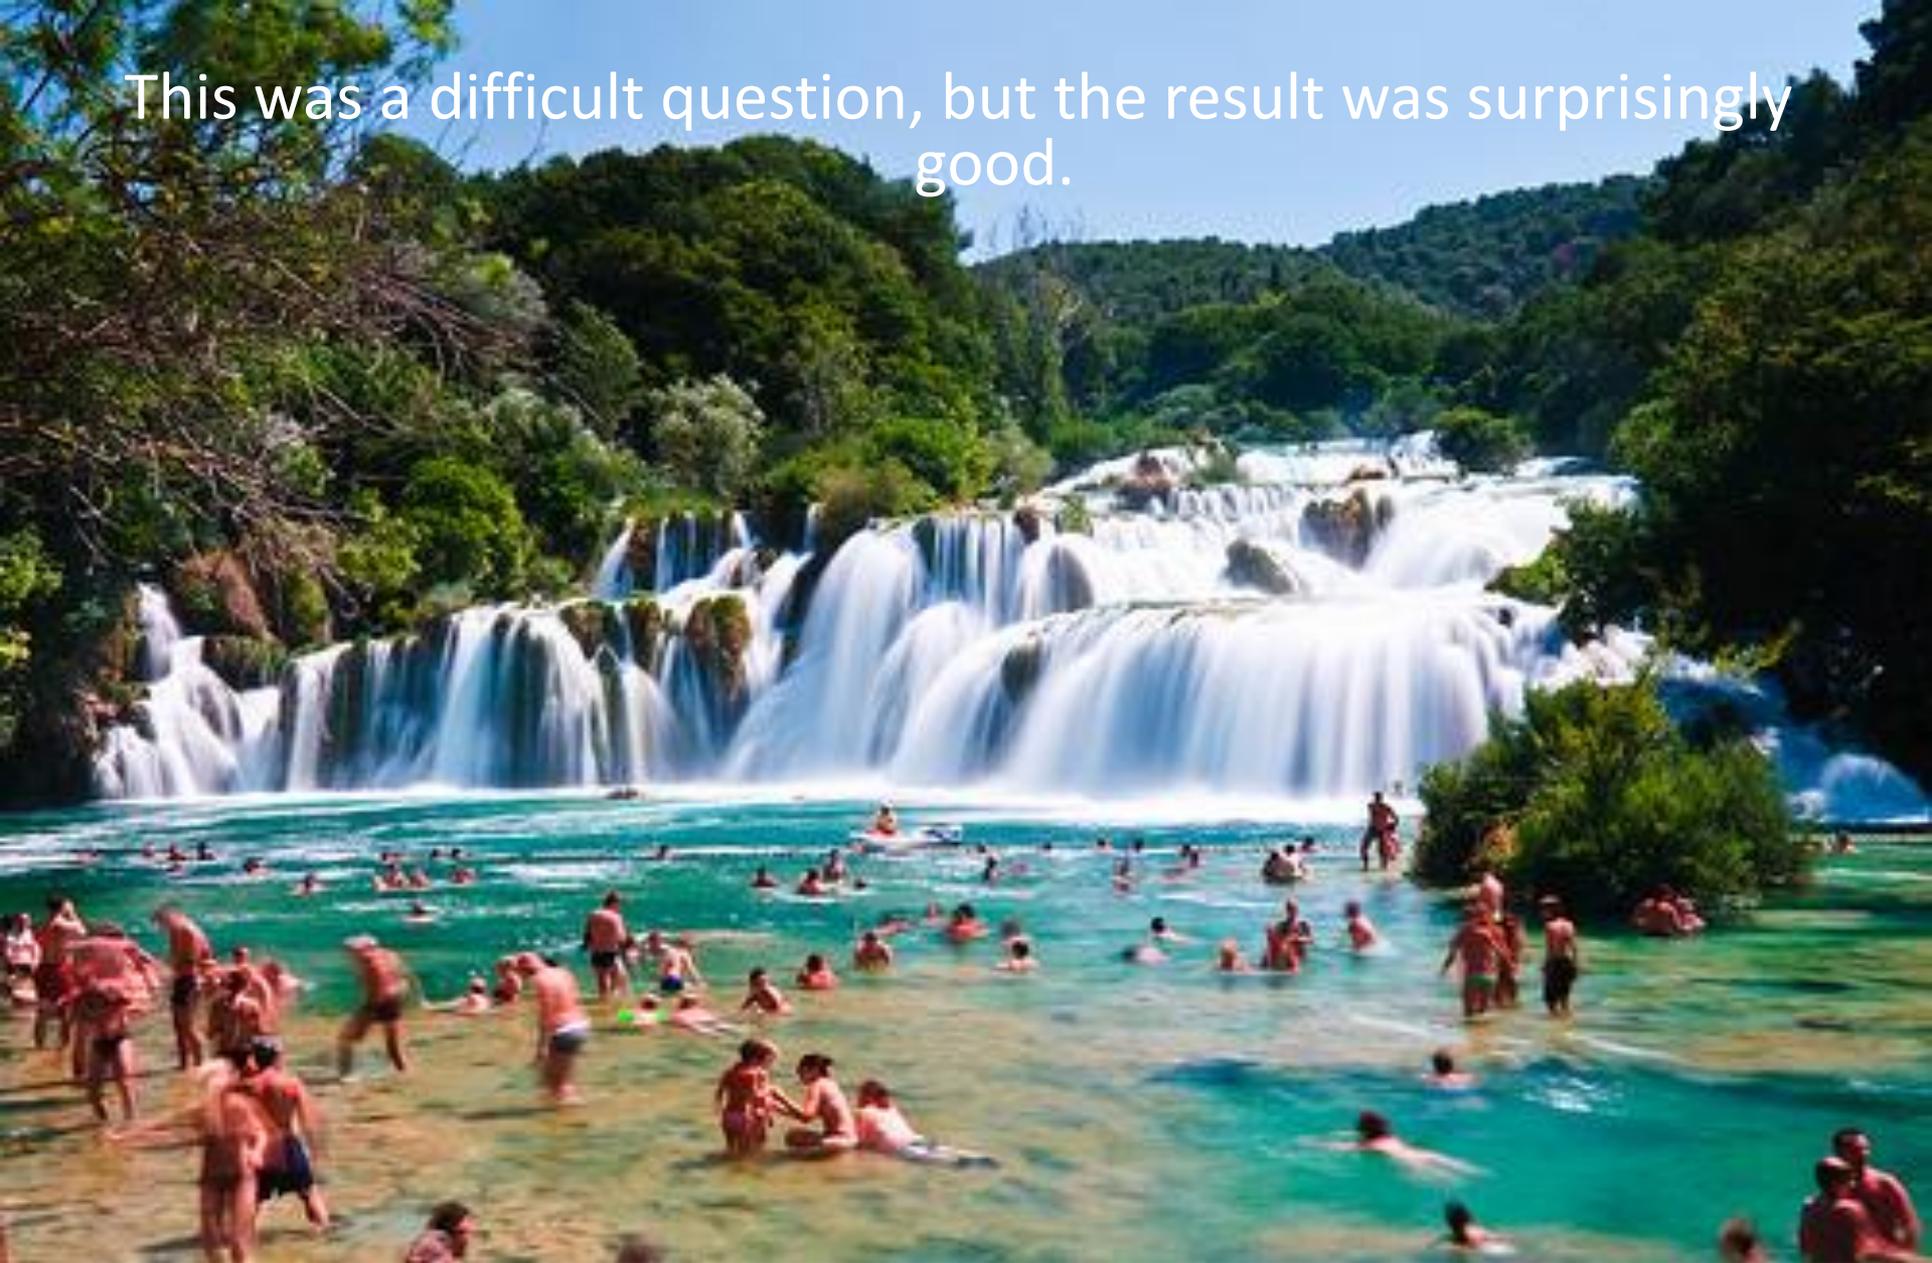

What' s the name of the longest and the most beautiful waterfall of Krka river?
(Skradinski buk)

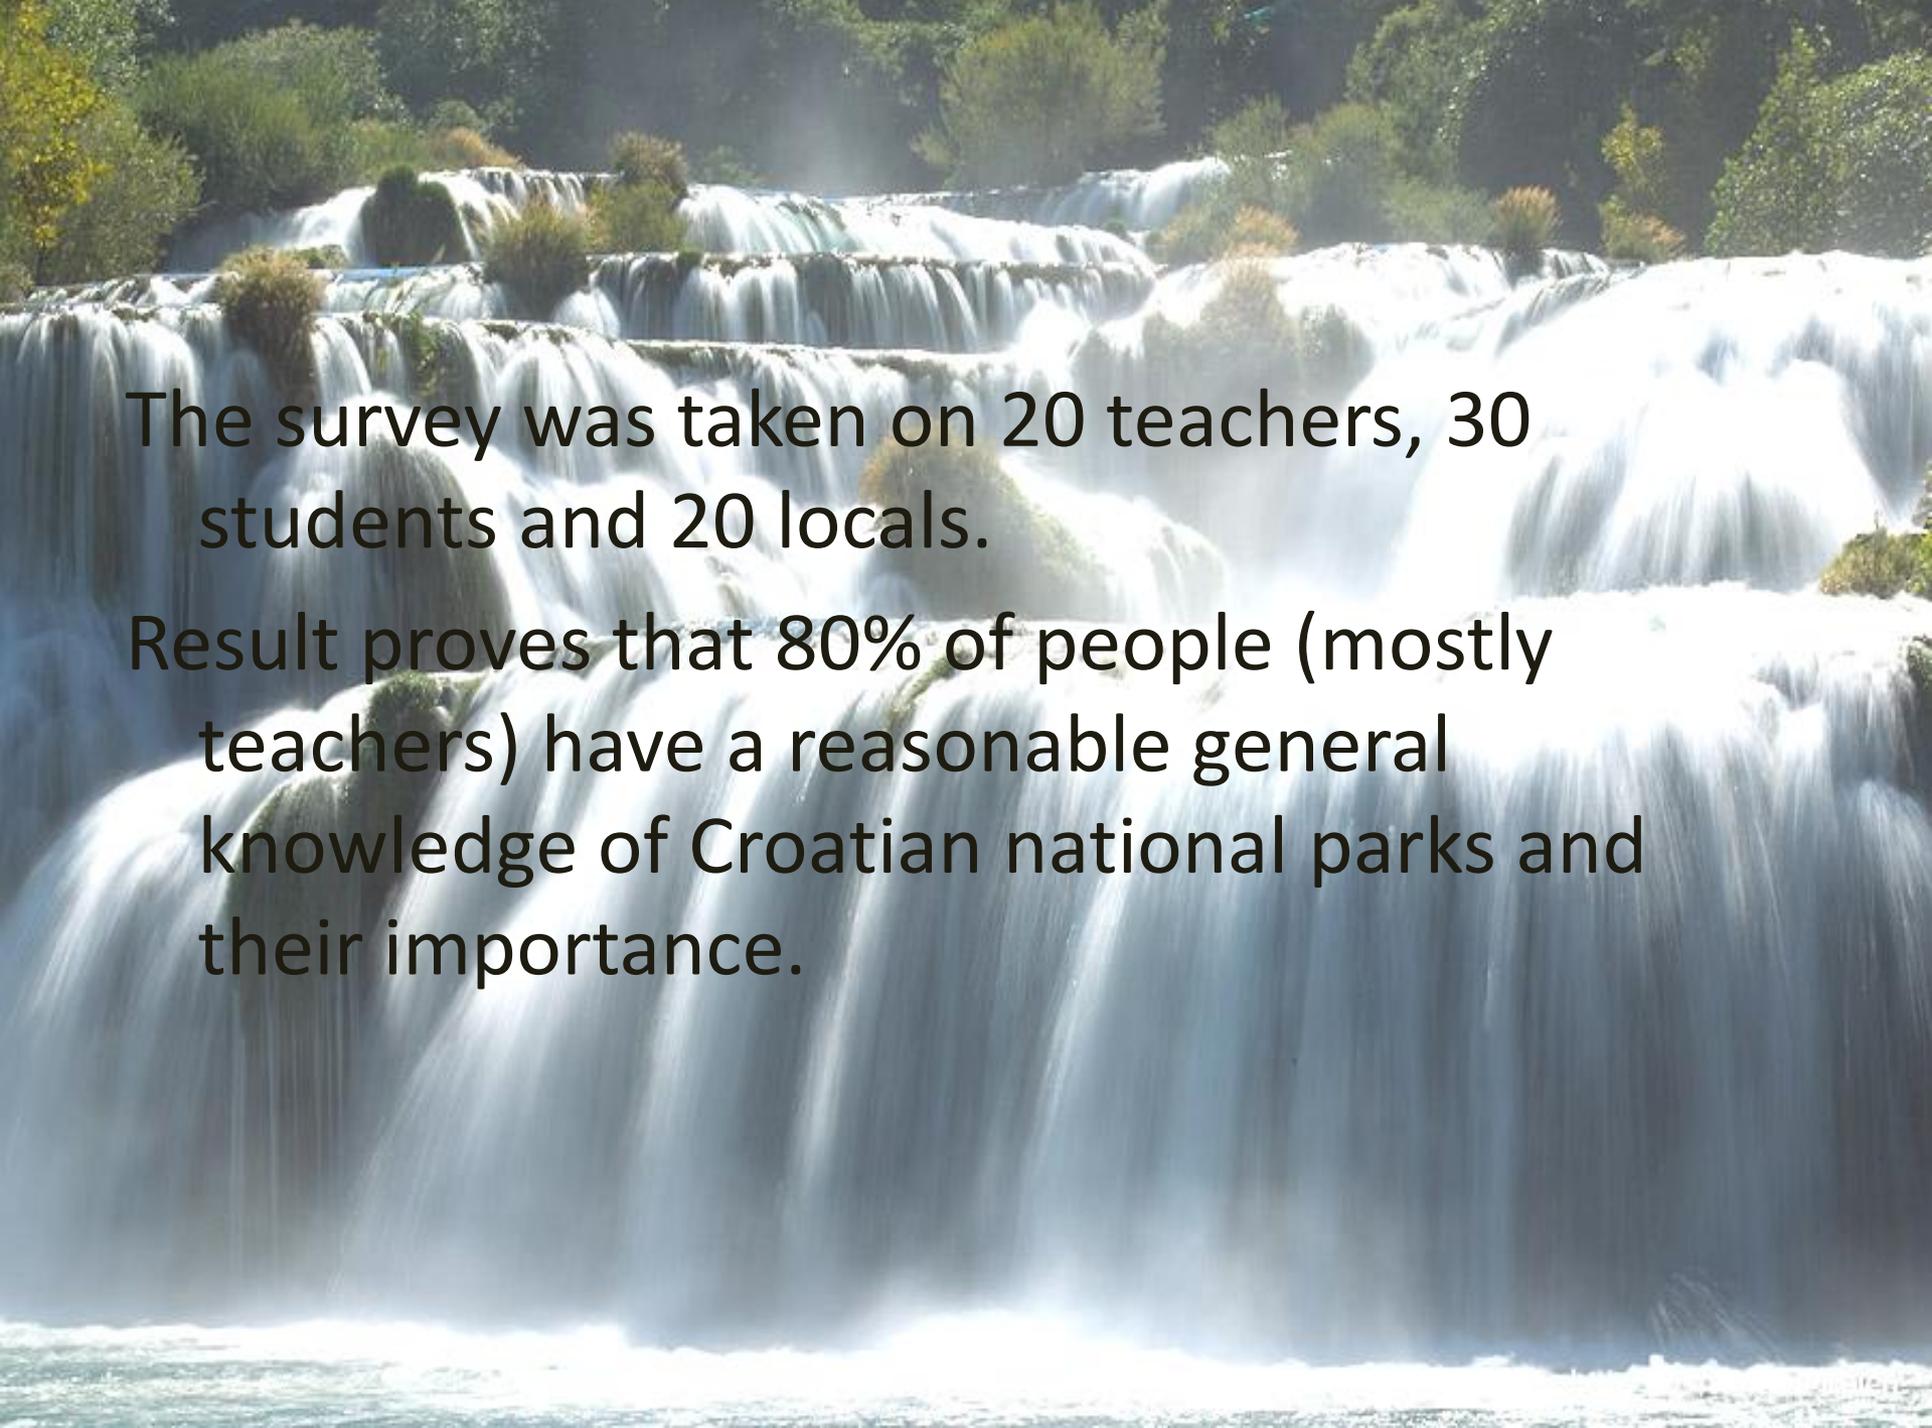

Total correct and incorrect answers

This was a difficult question, but the result was surprisingly good.

A wide, multi-tiered waterfall cascading over mossy rocks in a lush green forest. The water is white and frothy as it falls, creating a misty atmosphere. The surrounding vegetation is dense and vibrant green.

The survey was taken on 20 teachers, 30 students and 20 locals.

Result proves that 80% of people (mostly teachers) have a reasonable general knowledge of Croatian national parks and their importance.
